11.20/70

Dear Bud, Jim,

There is a story in this a.m.'s Post that I think may not be irrelevant to the nature of the DJ pleading in the spectro case, although there is no relationship. I have a call in to Paul Valentine, who may or may not call back (he is out of the office) & to see if he can illuminate.

Sanford Unger wrote the story. Headline, "Court Tells FBI To Erase Man's Record." The record is in error, but the government contests it. Before Judge Alexander, Gen. Sess.

This business on the FBI's records, even if in error, is a bit too much.

In my edition, the story is on page 1.

Sincerely,
